Supporting Responders

Pound Ridge Police Dept:

Tammy Caulkins, EMT

Chief David Ryan, EMT

We're there for all of Pound Ridge.

Will you be there for us?

Dear Friends and Neighbors,

The Pound Ridge Volunteer Ambulance Corps has been serving the community since 1966. In sickness and in health, we respond to emergencies 24/7 and offer wellness programs such as CPR clinics and blood pressure screenings to the community.

The costs of meeting state and national standards to operate the ambulance corps have been steadily increasing. This includes utilities, medical supplies, continuing education, licensing, and maintaining and insuring two ambulances. All of this is necessary to continue to supply you with the highest level of emergency care.

We receive no funding from federal, state, or local taxes nor do we receive any funding from the local police or fire departments.

Please give at any level that is comfortable for you, but please give. Our goal is 100% participation from all Pound Ridge residents and businesses.

Thank you for your continued support.

Sincerely,

Amiel Peretz
President
